

# IoT Virtual Bootcamp

December  
12 – 14, 2017

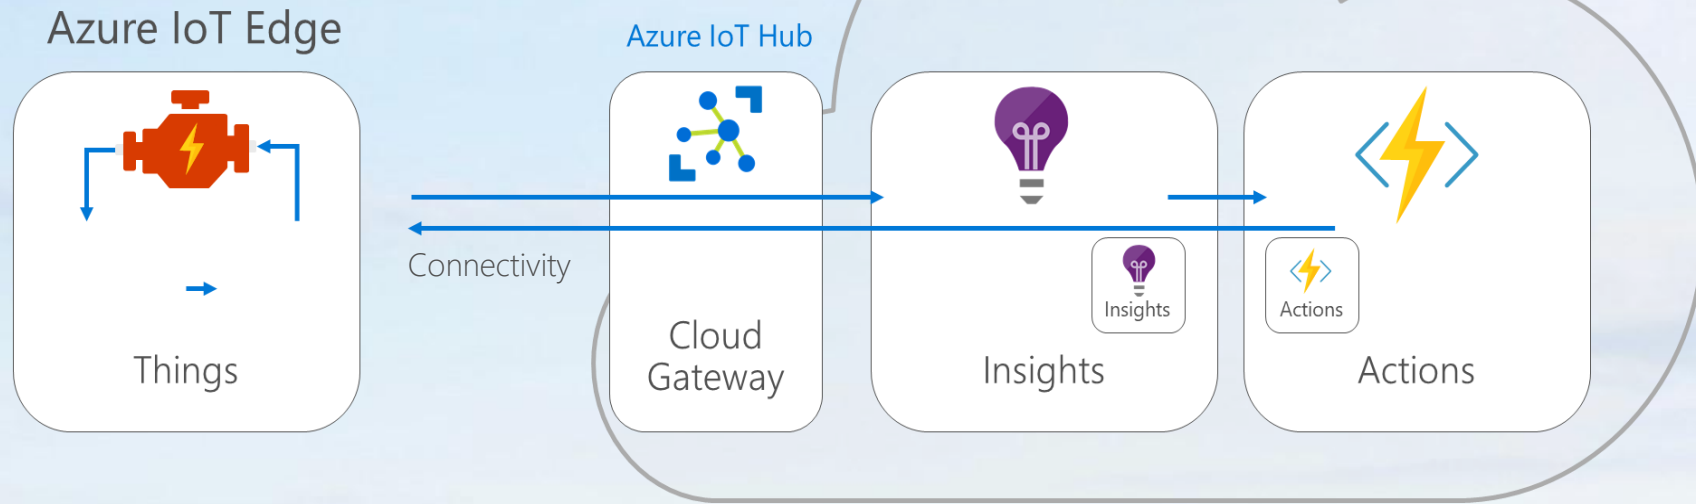

*New Day ..  
New Learnings ..*

*Same journey*

*A Brief Journey from Device to Action ...*

## repetitive IoT Pattern

## A Brief Journey from Device to Action ...

### Day 1

#### Get started

- Basic Things
- Get them connected
- Collect & Visualize Data

### Day 2

#### Go commercial, Mine Gold

- Smarter & Commercial things
- Ingesting data at scale
- Mining Gold (i.e. Insights)
- Cloud vs Edge Processing
- Introduction to AI/ML

### Day 3

#### Make it Intelligent / Make it real

- Inducing AI in IoT – Cognitive services, Bot framework, Azure Machine learning
- Industry Use case examples
- Accelerate IoT adoption – PaaS & SaaS

### Beyond

#### Journey has just begun..

- Business Model considerations
- Securing and E2E Solution
- IoT AI @Edge
- Advanced ML
- Deep Learning
- Blockchain & IoT

# Housekeeping

- ❑ Read instruction on <http://aka.ms/IoTVirtualBootcamp>
- ❑ Access Skype broadcast / Issues ? [iplive@Microsoft.com](mailto:iplive@Microsoft.com)
- ❑ Use Q&A panel or mail to [virtualbootcamphelp@Microsoft.com](mailto:virtualbootcamphelp@Microsoft.com)
- ❑ Quiz 2 (@ Lunch, @ end ) + Survey on Day 3 end
- ❑ Everything else ONE place: <http://aka.ms/IoTVirtualBootcamp>
  - Recoding's (full day, modularized)
  - Updated content
  - Downloadable Labs
  - Content files

# IoT .. Beyond Technology ..

1. How do you think about IoT as a business enabler ?
2. How can IoT open new & innovative business models ?
3. Security – how to look at it holistically ?

*Some nuggets of wisdom from  
Rodney Clark, VP OF Microsoft IoT device experience*

# Microsoft IoT Bootcamp Speakers

## Guest Speakers

[Limor Fried](#),  
CEO, Adafruit  
Industries

[Eben Upton](#)  
Founder, Raspberry  
PI

[Ted Way](#)  
AI & Research,  
Microsoft

## Bootcamp Lead Trainers

[Kevin Saye](#)  
Cloud Solution Architect,  
Microsoft

[Maarten Struys](#),  
IoT Design In Strategist,  
Microsoft

[Chris Segura](#)  
Windows Azure IoT,  
Microsoft

# Our Support Team

Michael King  
**Microsoft**

Ken Marlin  
**Arrow Electronics**

Salman Faris  
**Hackster.io**

Marcel Bösing  
**Avnet Silica**

Tim Graves  
**Microsoft**

Kijo Kim  
**Microsoft**

Harold Pulcher  
**Improving**

Kent Stroker  
**Microsoft**

Kevin Saye  
**Microsoft**

Martin Grossen  
**Avnet Silica**

Adam Benzion  
**Hackster.io**

Gordon Smith  
**Microsoft**

Maarten Struys  
**Microsoft**

Andrea Gallagher  
**Microsoft**

# IoT Education + Possibilities + Partnerships

## Suggested IoT Resources

- Educational Sessions (Business & Technical) :  
<http://videos.microsoft.com/IoTinAction>
- IoT resource for MS partners:  
<https://www.microsoftpartnerserverandcloud.com/Pages/practice.aspx?page=20>
- Latest on IoT from MS : <https://blogs.microsoft.com/iot/>
- IoT Security (7 properties of highly secure things):  
<https://www.wired.com/story/project-sopris-iot-security/>
- Industry Use cases & more information Azure IoT :  
<https://www.microsoft.com/en-us/internet-of-things>

## Upcoming events

- Jan 11 2018 **Virtual Session** : Predictive Maintenance Webinar Presented by Microsoft and Happiest Minds -  
<http://aka.ms/IOT-HM>
- Jan 25-26 **Tokyo**; Jan 30 **Seoul**; Feb 13 2018 **SFO**: Microsoft IoT in Action WW series. Register at:  
<http://aka.ms/IOT-SF>

*The Journey continues ..*

# IoT Virtual Bootcamp

December  
12 – 14, 2017

# Agenda

## Day 1

Topics	Time (min)
Bootcamp Opening	15
Guest Speaker - Limor Fried	45
Lecture #1 - Introduction - IoT 101	45
HO Lab #1 - Introduction to IoT Things - Build a basic device	30
Lecture #2 - Connecting your first device	30
HO Lab #2 - Connecting your first device Lab	45
<i>Rest Break</i>	30
Lecture #3 - Data Basics	30
HO Lab 3 - Data Basics - Cold Path Processing Lab	60
Lecture #4 - Taking Action & Serverless architecture	30
HO Lab 4 - Taking Action & Serverless architecture - using Azure Functions	30
Wrap up	15

## Day 2

Topics	Time (min)
Opening	15
Guest Speaker - Eben Upton	45
Lecture #5a. Showcase Commercial Things in use today	45
Lecture #5b. Building Smarter Commercial grade things and need for an Operating System	45
HO Lab #5 - Build a Smarter Commercial grade thing and connect it to cloud	60
<i>Rest Break</i>	30
Lecture #6 - Cloud Deep dive - IoT Hub, Device twins & IoT edge	45
HO Lab #6 - Cloud Deep dive - Device Twin Lab	30
Lecture #7 - Introduction to Big Data, AI & ML	45
HO Lab #7 - Introduction to Big Data Data, AI & ML - Stream Analytics Lab	45
Wrap up	15

## Day 3

Topics	Time (min)
Opening	15
Guest Speaker - Ted Way	60
Lecture #8 - Cognitive Services	45
HO Lab # 8 - Cognitive Services Lab	60
<i>Rest Break</i>	30
Lecture #9 - BOT Framework (Level 100)	45
HOL #9 - Build a chatbot	60
Lecture #10 - IoT Accelerate to Market with IoT Suite for top 3	45
Q&A Time / Key Takeaways Revisited	45
Wrap up	15
